MODULAR SURVEILLANCE

## P-TYPE MODULAR SURVEILLANCE

- PROTECT OFFICERS
- CATCH CRIMINALS
- PREVENT CRIME

THE P TYPE IS A FULL-SPEC THERMAL IMAGING CAMERA, SPECIFICALLY DESIGNED FOR SURVEILLANCE USE

Avon Protection are focused on designing and manufacturing the highest quality thermal imaging cameras on the market.

Avon Protection thermal imaging technology is a cost-effective addition to your law enforcement team, enabling officers to observe a scene from a distance without revealing their location.

## SYSTEM FEATURES

- Lightweight 0.95kg (2.1lb)
- OLED display
- Fast 5 second start-up time
- Long 5 hour battery life
- Simple button functionality

- ScreenSave™  
Capture up to 1000 images and 8 hours of video on a removable memory card

- x2 and x4 digital zoom

Avon Protection Handheld Thermal Imaging Cameras (TICS) are essential in the fight against crime, especially at night or in zero visibility conditions. The P Type will expose criminals that are camouflaged or hiding in shadows or bushes, otherwise invisible to the naked eye.

# MODULAR SURVEILLANCE

## KEY APPLICATIONS

- Covert surveillance operations
- Search and rescue missions
- Routine patrols
- Collision response
- Gathering forensic evidence
- Occupancy evaluation

## KEY FEATURES

### Lens options

By changing the lens, the P Type can adapt to a range of situations such as covert surveillance operations, search and rescue missions or occupancy evaluation. Easily identify and capture images of objects over 1,000m away.

### Shuttered OLED display

The P Type features a superb clarity OLED display, which gives true black as backlights are not required. The OLED display is viewed through a shuttered eye-cup, meaning that no light is given off.

### Unparalleled image quality

The 320 × 240 sensor option provides the highest detail for demanding requirements, enhanced with proprietary signal processing algorithms, providing an excellent image for detailed operations.

### Tripod mount

The P Type has an integrated 1/4" tripod mount, perfect for fixed and stabilised surveillance points.

### Dioptre adjustment

Adjust the settings to compensate for less than perfect vision. The majority of users will be able to remove their glasses and use the P Type as normal.

The Avon Protection P Type can be customised to suit the needs of your team, including upgrades and accessories to ensure you get the most from your thermal imaging camera.

Observe a scene and gather evidence from a distance

Cannabis farm detected in the loft of a residential house

Occupancy evaluation

Fugitive hiding in light foliage
