YOUR GSE BUSINESS PARTNER  
REMARKETED GSE

# COMPANY CORE-BUSINESS

Headquartered in Brussels airport, TCR is the leading European provider of turnkey solutions in the field of total GSE management. Offering expertise in GSE rental (short term), operational leasing (long term), fleet conversion, GSE repair and maintenance, ramp assistance and supply of pre-owned GSE, it's no surprise that the world's leading handling companies, airlines, airports and cargo handlers all turn to TCR for their GSE requirements.

TCR employs today over 550 staff and is present in 75 airports in Belgium, France, Ireland, Italy, Germany, the Netherlands, Norway, Spain, the United Kingdom.

## Rental customers

TCR has long standing relationships with key players and demonstrates an excellent customer retention rate.

- TCR has 50+ customers serving 300+ airlines and handling 5000+ flights a day.
- Most of the top independent handlers are customers of TCR.
- TCR takes care of the full life cycle of GSE: purchase, rental, maintenance, fleet management. The customer is charged all-inclusive.

## Fleet of GSE owned by TCR

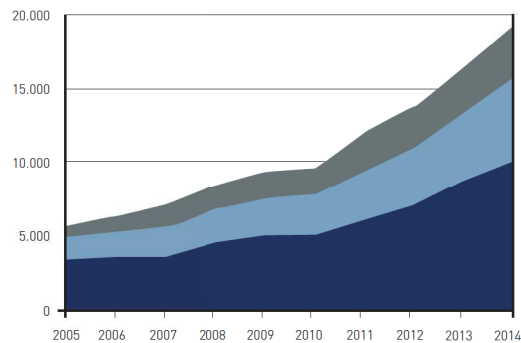

TCR's fleet comprises over 19,000 GSE and has more than doubled over the last 6 years.

TCR closely manages its fleet by supervising several indicators

for each single GSE. Those indicators allow the company to monitor the conditions of the GSE at all times, its availability, the planned replacement, the average age, its utilization rate, etc.

- Accessories
- Motorised
- Non-motorised

## Evolution of assets

# SALE OF PRE-OWNED GSE & ASSOCIATED SERVICES

After the initial rental period, both motorised and non-motorised GSE owned and maintained by TCR are remarketed. TCR is more than a reseller as we provide added value services to our customers through:

## Technical advices

TCR extensive knowledge of ground handling operations and experience in GSE maintenance allows our sales team to advise you on the right selection of equipment.

## Maintenance & Refurbishment

All GSE supplied by TCR are in operational conditions.

The equipment can be prepared by our technicians in any of our 28 workshops according to your requirements : "As is" (Operational conditions), Preventive & corrective maintenance, Paint or "Zero time" refurbishment.

### BEFORE

### AFTER

## Spare parts

TCR holds extensive stock of spare parts and will provide the necessary spare parts in accordance with the manufacturer specifications wherever the equipment stands.

## Worldwide Transport

TCR has a wide experience with organising cost-effective shipments all over the world.

TCR has an extensive database with many transport and shipping companies which are specialised in transporting GSE worldwide."

## On-site technical support

TCR can send their highly experienced technicians all over the world. These technicians have a lot of know-how in different aspects of the GSE, from the hydraulics up to the electronic components.

Languages spoken by our employees: English, French, Dutch, Spanish, German.

Internet connections (Skype) allow TCR technicians to give online support if assistance is an immediate necessity.
