

GTW995 Voice Gateway

The GTW995 is a voice gateway designed for high-reliability systems. It features four 1000 Base-T Gigabit Ethernet jacks to maintain a redundant connection to two networks.

GTW995 Key Features

Connections

- 4x 1000 Base-T Gigabit Ethernet
- 3x dry contact output
- 1x dry contact input
- Optional USB type-C (3.1 gen 1) port

Power

- Power usage 25 W
- 230 VAC input
- 15 – 70 VDC input

Dimensions

- Width 19"
- Height 1U
- Depth 20 cm

Display

- 6.6" Display
- Capacitive touch screen
- Brightness 800 Cd/m²
- Viewing angle 80°

Applications

- VCS system in ATC
- VCS system in Maritime

Operating environment

- Temperature -20 to 55 °C
- Humidity 5 – 95% non-condensing

Interoperability

- ED-137

Regulations

- EMC EN 55032, EN 55035
- Safety EN 62368-1
