Controlled Access Solutions

Company Profile

Remove the Risk. Choose Electro

The Electro Automation Group is widely regarded as the UK's premier automation specialist. Formed in Dublin in 1984, The Electro Automation Group has since provided an enviable combination of quality equipment supported by exceptional technical after sales service.

The concept proved popular from the outset and the company soon began to expand. Within a year of formation, continued growth led to the creation of Electro Automation (NI) Limited, based in Lisburn, Northern Ireland. The Group then acquired a majority shareholding in Perimeter Security Group (now EA Group (UK) Limited) based in Surrey, England. Further companies have followed including our specialist steelwork company Electro UK based in Birmingham. The Electro Automation Group now has companies throughout the UK, Ireland, and Germany.

The Electro Automation Group has a reputation for world class customer service service and product quality. Our reputation is built on expertise, experience, innovation and reliability.

Don't just take our word for it...

“ We have worked with Electro Automation on several large commercial developments. I would have absolutely no hesitation in recommending Electro – we have always found them to offer a reliable service and quality products. The after sales service from Electro Automation cannot be faulted.”

Our Philosophy

We care. These two small words form the basic strategy for our business foundation. Being totally committed to the success of our clients allows us to grow in today's aggressive marketplace.

Our ongoing investment in our personnel, premises, infrastructure, stock, and training allows us to offer a combination of products, sales knowledge, installation and technical support that is unparalleled. Our integration skills and experience allows us to add value to every project. We have new purpose built premises in Birmingham, Dublin, each of which contains state of the art diagnostics and technical support equipment. Business demands 24 hour service and readily available technical support, advice and spare parts. We provide this and more.

Our Promise

When we provide a fixed quotation we guarantee that it is a workable solution. We protect your interests by ensuring that each project is completed with minimum disruption, and most importantly we stand over our products and every contract we complete. Our reputation and integrity are important to us.

Our Vision

We are a progressive locally owned Group of Companies with a determination to be the best at what we do. Centred loosely around automation systems, the group is widely recognised as being the UK's leading provider of automation and access control solutions. With continuous growth during our 40+ years in business, we don't set ourselves limits, and are determined to continue our expansion in this growing sector.

Our Services

We offer an exceptional range of products and services linked by our 40+ years of knowledge and experience within the automation industry. We have more branches, more engineers, more spare parts, more experience than any other local company. With branches in Birmingham, Dublin, & Lisburn, we offer Nationwide service, locally supported.

Stadium Turnstiles

Whether it's for inside arenas or for outside perimeter security, waist height, & full-height turnstiles offer security automation for stadiums. Helping to prevent unauthorised access, these turnstiles are great security tools for smaller stadiums.

Automatic Doors

Our specialist doors division offers an unsurpassed level of expertise with a full design, manufacture, installation and maintenance service for sliding and swing doors. Nationwide coverage, & locally supported.

Gate Automation

Automatic Gates combine security with convenience and are accepted as one of the most efficient methods of perimeter control. Both new and existing gates can be automated without fuss. Gate Automation is available for commercial, industrial and residential applications and our design flexibility ensures that an ideal solution is available for each project.

Turnstiles

Our superb range of high quality turnstiles are truly exceptional. Make an impressive entrance with Electro Automation and take control of your entrance area in a low cost secure and attractive environment. We can add a host of added functionality including access control, alarms, biometric testing, sanitising and sampling.

HTC Folding Gates

As the sole provider of HTC Folding Gates in the UK, Electro Automation delivers a truly premium access control solution for sites that demand security without compromise. HTC Folding Gates combine exceptional strength with an innovative folding design, making them ideal for locations where space is limited but security is critical.

Traffic Barriers

High-performance traffic barrier solutions engineered for continuous use in demanding environments. Offering robust construction, smooth automation, and adaptable control options, they deliver long-term reliability for commercial, hospitality, and public-sector sites.

Service & Maintenance

Our dedicated Service and Maintenance team ensures your systems operate reliably, safely, and at peak performance. We provide planned preventative maintenance, rapid-response breakdown support, and access to highly trained engineers across the UK. With genuine parts, expert diagnostics, and industry-leading service standards, we keep your automation solutions running smoothly with minimal downtime.
